DETAILED ACTION

1. This office action is in response to the application filed on August 21, 2003, in which claims 1-24 are presented for examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-18, drawn to a use of manipulating plurality of items, classified in class 707, subclass 1.
 - II. Claims 19-24, drawn to a use of organizing items in a database, classified in class 707, subclass 101.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination Group I and II has separate utility such as the use of organizing items in a database by constituting a discrete storage. See MPEP § 806.05(d).
4. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
5. Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Art Unit: 2162

6. A telephone call was made to Richard W. Knight (Reg. No. 42,751) on June 16, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made because the phone rang with no answer.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
